Mayors' Institute Alumni
Over the last ten years, 288 mayors representing 259 cities have participated in the Mayors' Institute. The problems they have brought demonstrate not only the breadth but also the similarity of design challenges cities face, regardless of their size or location. For more information about the case studies listed here, contact The Mayors Institute on City Design, 401 F Street NW, Washington D.C. 20001, (202) 393-4112.
