Surrogate Landscape

Antoine Predock

1 Tempio di Apollo  Tectonic collision: the theater of Marsilia, the portico of Octavius and the Temple of Apollo asect in controlled disarray. Engine noises and dead Vespas add to the accelerating landscape.

2 Basilica di Massenzio  The feeling of occupying a designated vantage point from which to draw the dorama of an inner surrogate landscape.
3 Foro Romano  The architectural topography blurs the sense of original prestige datum, and is no longer viewed with the impetus toward mental reconstruction.

4 Colosseo, Roma  Colosseum as urban time machine, its eroding silhouette in dialog with Celentano.
